

FeatherBlock

Portable Stage

The Featherblock portable stage allows you to configure the stage the way you want it. You are not limited to rectangles and squares. We can provide you with a custom stage to meet your requirements. Each stage is custom designed to make sure all the parts fit exactly the way you want.

This product is available in 8", 12" and 16" high modules up to 4' wide and 8' long. The riser comes standard with the IPT (www.innovativepanel.com) "Quadriple" laminated anti-skid surface on top and bottom surfaces. This product is easy to transport and has NO dangerous folding legs or pinch points. This is also available with optional latch designs and lifting handles. See our web site for complete details and more images of what we can do.
